## Big Features found in no other Low-Priced Six

AMONG the scores of advanced engineering features that contribute to the impressive quality of the New Series Pontiac Six, there are three advancements worthy of special notice . . . three important features found in no other six at Pontiac price.

First, the New Series Pontiac Six offers the smart styling, the luxurious comfort, the rich appointments and the staunch construction of bodies by Fisher.

Second, the New Series Pontiac Six engine embodies the new G.M.R. (General Motors Research) cylinder head, which uses ordinary gasoline to achieve amazing smoothness and silence with economy of operation.

Third, Lovejoy Hydraulic Shock Absorbers, standard equipment on the New Series Pontiac Six, provide an ease of riding that makes the roughest roads seem smooth.

Here are three big features that no buyer of a six in Pontiac's price class can afford to overlook. Even if the New Series Pontiac Six offered no other exclusive advantages, it would still hold its position as the world's finest low-priced six.

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy. P23-6-10C

## Death Claims Popular Baseball Player

There passed away at the Innisfail General Hospital on Friday, June 29th, Roy Sherriffs, a resident of Carstairs, one of the most popular baseball and hockey players of the Rosebud League.

He was struck on the head with a baseball while playing at Bowden last Thursday, from which he never regained consciousness, the effects of which caused heart failure.

Born in Carstairs 26 years ago Roy leaves to mourn his loss, his father and mother; three sisters, Dora, Lydia and Thelma; and one brother, George.

The funeral, which took place from the United Church, Carstairs, on Sunday, July 1st, was one of the largest and beautiful ever held at that town. The floral tributes were many and beautiful, interment taking place in the Carstairs cemetery.

### OBITUARY

After a long and painful illness, Mrs. Henry Snyder passed away at her home, Mayton, Saturday, June 30th, at the ripe old age of 75 years and 2 months.

Previous to her marriage her name was Anna Marie Luft, being united in marriage to Henry Snyder, January 13th, 1871. Coming to Canada in July 1912, they made their home at Elkton, and for the last two years at Mayton. She leaves to mourn her loss, besides her husband, two sons and one daughter, twenty-one grandchildren and nine great-grandchildren.

The funeral services were conducted by Rev. C. Nissen of Westcott, interment being made in the Mayton cemetery on July 2nd.

Mr. George McCoy, of Carstairs, died in the Didsbury hospital June 23rd following an operation for appendicitis. His heart gave way under the strain. The funeral services were held in the Carstairs United church at two o'clock Monday, June 25th, interment being made in the Carstairs cemetery.

George McCoy was born at Madoc, Ontario, September 23, 1873. He was one of six sons of James and Flora McCoy of Madoc, Ont. During his early life he worked on Ontario farms. He was married to Eli May Pigdon of Madoc, Ont., in 1903. There are four sons to this union: Alexander, who is in business in British Columbia; Arthur, Jim and Melbourne at home. George McCoy came west with his family about fifteen years ago, living in Calgary and Didsbury for a few years and finally purchasing a farm in the Carstairs district where the family have built up a splendid farm home. He is survived by a mother, five brothers, his wife, and four sons, who mourn their loss.

George McCoy was a good citizen, neighbor and friend; a man well liked in the community. The large concourse of people who attended the funeral service of the deceased attest the fact. One business man said of him: "It was a pleasure to do business with George McCoy." The community can ill afford to lose such men; but, "My thoughts are not your thoughts, neither are your ways my way, saith the Lord."

How dull business would be if every man refrained from buying until he could afford it.

### Another Step Toward Permanent Peace

Throughout the years of the Great War, the people of the allied nations were repeatedly told that it was a war to make the world safe for democracy, "a war to end war." And when at last the great struggle ended and the League of Nations came into being it was thought that, with the bitter experience of the war fresh in all minds, there would be little hesitation on the part of any country to join the League, and that, with 100 per cent. world membership in the League, world disarmament would follow in due course.

The refusal of the United States to have anything to do with the League of Nations, the very country in which the idea originated, came as a rude shock to all lovers and advocates of peace. It discouraged Europe, re-awakened all the old fears, and actually led to renewed activity in the piling up of armaments. Nevertheless, the League struggled on, gaining new adherents, and, with each succeeding success in settling international disputes and preventing open ruptures, the League grew in strength and prestige. Nonetheless, so long as the United States remained aloof it was felt that the structure for world peace was imperfect and insecure.

Because of this fact, the recent action of Mr. Kellogg, United States Secretary of State, in inviting the nations of the world to enter into a multilateral treaty to outlaw war, was enthusiastically welcomed by all lovers of peace, and nowhere quite so heartily as in Canada and other parts of the British Empire.

Already fifteen nations, including, with the exception of Russia, all the Great Powers, have signified their willingness to sign such a treaty. The draft of this momentous international document is brief and to the point, and, as it may well prove to be the Magna Charta of world peace, it is worthy of the widest possible reproduction in order that all people, everywhere, may read it. The preamble, in part, is as follows:

"Deeply sensible of their solemn duty to promote the welfare of mankind;

"Persuaded that the time has come when a frank renunciation of war as an instrument of national policy should be made to the end that the peaceful and friendly relations now existing between their peoples may be perpetuated;

"Convinced that all changes in their relations with one another should be sought only by pacific means and be the result of a peaceful and orderly process, and that any signatory power which shall hereafter seek to promote its national interests by resort to war should be denied the benefits furnished by this treaty;

"Hopeful that, encouraged by their example, all the other nations of the world will join in this humane endeavor, and by adhering to the present treaty as soon as it comes into force, bring peoples within the scope of its beneficent provisions, thus uniting the civilized nations of the world in a common renunciation of war as an instrument of their national policy."

Then follows the names of the fifteen nations who have signified their willingness to sign such a treaty, namely: Australia, Belgium, Canada, Czechoslovakia, France, Germany, Great Britain, India, Irish Free State, Italy, Japan, New Zealand, Poland, South Africa, United States of America.

To what do they agree? Having approved the declarations in the preamble quoted above, they bind themselves as follows:

"Article I. The high contracting parties solemnly declare in the names of their respective peoples that they condemn recourse to war for the solution of international controversies, and renounce it as an instrument of national policy in their relations with one another.

"Article II. The high contracting parties agree that the settlement or solution of all disputes or conflicts of whatever nature or of whatever origin they may be, which may arise among them, shall never be sought except by pacific means.

"Article III. The present treaty shall be ratified by the high contracting parties named in the preamble in accordance with their respective constitutional requirements and shall take effect as between them as soon as all their several instruments of ratification shall have been deposited at ( ).

"This treaty shall, when it has come into effect as prescribed in the preceding paragraph, remain open as long as may be necessary for adherence by all the other powers of the world. Every instrument evidencing the adherence of a power shall be deposited at ( ), and the treaty shall immediately upon such deposit become effective as between the power thus adhering and the other powers parties hereto."

That is the whole document, beautiful in its simplicity, momentous in its sweeping renunciation of war under any and all circumstances. It does not replace the League of Nations, but adds power and strength to it. No loopholes are left, and should any nation signing this treaty ever again resort to war it would become, as never before, an outlaw among the nations.

#### Show Canadian Films

Views Of Canada To Be Shown In Britain and Central Europe

"Seeing Canada" films, made by Canadian Government, will be shown in from 300 to 500 British theatres this year as well as in Germany and Central Europe, says Captain Frank Badgley, M.C., director of the Canadian Government Motion Picture Bureau, upon his return from Great Britain. He expressed a belief that in the near future Canada would become an important field for the British Empire pictures.

#### Substitutes Cards For Pistol

Affair Of Honor In Czechoslovakia Settled In New Way

Pistols have given way to cards in the settlement of "affairs of honor" in Czechoslovakia, judging by the method adopted by a business man at Bruenn, near Prague, to avenge an insult.

An engineer in the town is said to have given offence to the business man, who challenged him to a duel. "Why not settle the affair at cards?" another man suggested. The men agreed, and sat down at the card-table to play for a stake of £1,500. The business man won.

#### Alberta Act Invalid

Privy Council Upholds Ruling Of Supreme Court Of Canada

Both the appeal of the province of Alberta and the counter appeal of the Dominion of Canada from a Canadian Supreme Court decision respecting the question of whether the right of the Crown upon intestacy is a provincial or Dominion right were dismissed without costs by the judicial committee of the Privy Council. The case involved the validity of the Ultimate Heir Act of the legislature of Alberta.

The judgment of the Privy Council upholds a ruling of the Supreme Court of Canada that the Ultimate Heir Act of Alberta is invalid. The Act provides that where a person dies without legitimate heirs, certain of the property goes to the University of Alberta.

### HOW DELICATE GIRLS ARE MADE STRONG

Rich, Red Blood Needed To Keep Up Their Vitality

It should be borne in mind that pale, bloodless girls need plenty of nourishment, plenty of sleep and regular out-of-doors exercise. But a lack of appetite and tired, aching limbs tend to hinder progress. To save the weak, thin-blooded sufferer, she must have new, rich blood, and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, thus bringing new health and strength and transforming anaemic girls and women into cheerful, happy people.

The value of Dr. Williams' Pink Pills in the case of anaemic girls is proved by the case of Miss Lucy Stoddart, Margareville, N.S., who says: "From the age of 12 to 15, I was in an anaemic condition. I was very thin and nervous, had no appetite and had no desire to take part in the doings of those of my age. My mother got tonic after tonic for me, but they did me very little good. Then Dr. Williams' Pink Pills were recommended and almost from the first they seemed to be just what was needed to restore my strength. After taking the pills for a time I felt an altogether different girl. I got up in the morning feeling bright and active, and ready for work or play. Since then I have always taken a couple of boxes of Dr. Williams' Pink Pills in the spring as a tonic and have thus kept in the best of condition."

Every weak girl should promptly follow the example of Miss Stoddart, feeling sure that the pills will renew her health. You can get the pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Eskimo Census Taken

A census of the Eskimo people has just been completed. From the most reliable sources it is estimated that there are 7,103 Eskimos in Canada.

**Dust Causes Asthma.** Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

#### Arresting Decay In Wood

New Treatment Being Used May Make It Imperishable

A new tool has been invented for the purpose of giving logs a "hypodermic injection" to preserve them. This new scientific method is being used to inject into telegraph poles a spreading paste that is said to keep fungi at bay. Many years are said to be added to the pole's life. This treatment of wood is a step that may lead eventually to complete arrest of decay. If that ideal is accomplished, buildings of wood can be erected that will be as imperishable as structures of stone, brick, or steel, while the cost will be much less. The effect will be that of transmuting wood into rock.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

It has been estimated that a hospital doctor walks an average of 16 miles a day in the course of his duties; a shop assistant eight miles; a waiter 12 miles, and a tram conductor seven miles.

Sunburn? Use Minard's Liniment.

#### France Has Too Much Coal

Production Rises Until There Is No Need To Import

France, desperately short of coal for ten years, and always an importer, now has too much of it. For the first time French production equals consumption and imported coal is threatening to break the market.

When the Germans flooded French coal mines in the north during the World War, France lost half of her fuel and it has been a long struggle to get back to normal. Not only was the pre-war figure of 40,000,000 tons annually reached, but last year it went up to 60,000,000 and the Saar Valley has added another 13,000,000 tons.

All European coal mines have been working hard since the war because British strikes, the occupation of the Ruhr and the trouble in Upper Silesia created big shortages. Now that all are at work, Europe, according to French figures given to the League of Nations recently, has a surplus of 60,000,000 or 70,000,000 tons a year.

As all countries for generations have considered France as an importer of coal, they all still try to capture the market there, ignoring the fact that France now mines all she burns. Therefore, the French coal operators are puzzling how to reduce costs; curtail production and restrict imports so coal won't become too cheap.

#### Railways Arrange New Circle Tour

Convenient Visit To Glacier, Waterton and Jasper Parks Is Made Possible

An arrangement has been completed by the Great Northern and Canadian National Railways to make available to tourists a circle tour of three of the greatest playgrounds in the world. Under it tourists will be able to visit Glacier National Park, Alberta, without loss of time and at a considerable reduction in cost.

The inter-change point between the two companies will be Calgary where passengers for Jasper will take the Canadian National Railways and those for Waterton and Glacier will take Great Northern automobiles. The autos and the trains will make connections and summer tourist fares will apply in both cases. In the past it has only been possible for travellers to combine these places in one visit by making a round-about and expensive trip.

In Glacier and Waterton Parks the Great Northern Railway operates a number of splendid hotels, among which are The Prince of Wales Hotel, the Glacier Park Hotel, and the Many Glaciers Hotel. In Jasper, the Canadian National Railways operate Jasper Park Lodge, a unique and distinctive summer resort.

#### Find Blue Best Color

Blue is the most effective color to attract policemen at night, according to tests made by city officials of Sheffield, England. The city has just installed in outlying districts booths surmounted by powerful blue lamps, which when lighted by a switch in central office, summon the policemen from their beats to nearby telephones to receive instructions.

## INFLUENCE OF WHEAT POOL ON WORLD MARKETS

Edmonton.—Tales of the success of producer co-operative livestock associations in the United States were unfolded before the Institute of Co-operation here by C. G. Randell, of the United States Department of Agriculture's division of co-operative marketing, Washington.

"Bigger and better livestock co-operation" was the topic of Mr. Randell. He outlined the progress of farmer co-operatives in the republic, stating that their turnover last year exceeded two and a half millions.

Mr. Randell gave six reasons for success, guide posts to new standards of efficiency on the part of co-operatives; capable and efficient managers and employees; able and working board of directors; well informed active and supporting membership; proper financing and facilities for doing business; volume of livestock sufficient for economic operation; working program, embracing perhaps a research department.

"The greater control of our product, the greater control of our price," was the axiom laid down by George McIvor, general sales manager, Canadian Wheat Pools, in an address on "Functions of a Central Selling Agency." He expressed the desire to see every farmer in the West a pool member and was of the opinion that if the pool controlled 75 per cent. of the Canadian wheat crop (it now has 55 per cent.) it would virtually be able to control the Canadian price, having regard to world markets.

He remarked that the total of wheat traded upon the world markets was 800,000,000 bushels and when the Canadian pools handled 220,000,000 bushels, it could be readily seen what influence it already has on the world market.

"Some problems of management" were dealt with by E. B. Ramsey, of Winnipeg, manager of the Canadian Wheat Pool.

"There is no trick of management that can make up for a badly informed and dissatisfied membership," said Mr. Ramsey. He added that when a commercial concern failed, it was soon forgotten, while every co-operative that failed struck a blow at world co-operation.

## May Merge Wireless and Cable Interests

Report Of Pacific Cable Conference Is Awaited

London.—The Evening Standard said that it understood an announcement was expected immediately to the effect that the government would approve a merger of wireless and cable interests. Consequently, Marconi stock rose a dollar a share on the stock exchange, and shares of Eastern Telegraphs were also active.

Pending report of the Pacific Cable Conference which has been meeting in London for some time, rumors have been spread of a huge merger of existing cable and wireless company to take over from the various governments of the Empire the present system of Imperial communications. Canada is interested as a part operator of the Pacific cable system, the revenue from which has in recent years been unsatisfactory.

### Celebrates Anniversary

London.—The Duke of Connaught, former Governor-General of Canada, celebrated the sixtieth anniversary of his entry into the army by entertaining the members of the army council. The Duke, who recently observed his 78th birthday, enjoys wonderful health and fulfills a constant series of public and social engagements, although he has eliminated evening engagements.

### Jews Promise Three Millions

London.—The Jews of the United States were pledged to raise annually a minimum of \$3,000,000 to make up for the next five years the annual budget for the rebuilding of Palestine as a Jewish national home in accordance with the terms of the mandate of the League of Nations entrusted to Great Britain.

W. N. U. 1740

## Lord Plumer Vacating Post In Palestine

Has Held Position As Commissioner For Three Years

London.—Field Marshal Lord Plumer will shortly vacate the high commissionship of Palestine, which he has held since 1925. The Daily Express, in an article from its Jerusalem correspondent, says that the retirement will be brought about by Lord Plumer's differences with the British colonial office over the division of the cost of the Trans-Jordanian force as between the British Exchequer and Palestine, Palestine having already a budget deficiency of \$5,000,000.

Lord Plumer commanded the second army during some of the most important operations of the Belgian front in the war, in some of which the Canadian forces took part. He was specially mentioned for good work in connection with railway and forestry battalions. Lord Plumer, who is 71 years old, as a matter of fact, had Canadians constantly with him during the war and he also commanded men from the Dominions in the South African war.

## Wireworms Damage Saskatchewan Crops

Report Shows Activity Was Unusually Severe This Spring

Regina.—The greatest damage done to Saskatchewan crops this year is by wireworms, according to the recently issued report of the Dominion Entomological Laboratory, Saskatoon, on insect conditions. Much of the damage attributed to cutworms is in reality due to wireworms, it is stated. "Wireworm damage appears to have been unusually severe this spring due to the prevailing dry weather, the use of much unreliable seed grain and the fact that moisture was sufficiently high to enable the wireworms to keep working on much of the seed and particularly the lower part of the stem," says the report. "A certain degree of recovery has been noted as a result of the recent rains, which, however, may tend to lengthen the period of wireworm activity." The forest tent caterpillar infestation now includes an area in the Lloydminster-Maldstone District and the American tent caterpillar is unusually abundant in Western Saskatchewan.

## Wrong Man Executed

Tragic Miscarriage Of Justice Reported From Germany

Berlin.—"We therefore have no doubt that this unfortunate man was condemned to death and executed for a murder of which he was completely innocent."

This is the sensational statement with which the Mecklenburg-Strelitz Ministry of Justice confesses to a shocked public a miscarriage of justice, which is described by Berlin newspapers as the most terrible in German history within the last 50 years.

The announcement was accompanied by the dramatic disclosure that four men on whose evidence the prisoner had been condemned have been arrested and have confessed that they themselves committed the crime for which this innocent man had suffered death.

## Search For Lost Continent

Expedition Has Left New York For the Azores

New York.—An expedition in search of traces of the supposedly "lost continent" of Atlantis has sailed for the Azores.

The expedition's ship, named the Atlantis, was designed by Columbus O'Donnell Iselin, 2nd, of New York, captain of the expedition, and is equipped with machinery invented by Iselin, which is expected to dredge the ocean bottom at a depth of three miles.

### May Try Westward Crossing

Paris.—Another Westward crossing of the Atlantic by aeroplane may be attempted early in July. The trans-Atlantic aeroplane of Maurice Drouhin and Joseph Lebriz should be ready before July 4. This flight will be a commercial venture. Lebriz said in a speech at Lyons.

## PLANS SPEAKING TOUR

Hon. R. B. Bennett, leader of the Federal Conservative Party, who is planning an extensive speaking tour of the dominion. This picture was taken just at the end of the session.

## Imitation Strike At Antwerp Made Real

Dock Workers Turned Joke Into Real Thing

Antwerp, Belgium.—An imitation strike turned out to be a real one, with 11,000 dock workers calling off work in the harbor of Antwerp and refusing to listen to the pleas of the shippers to return to their jobs. The affair started out as a joke.

Two Communists bicycled around the harbor, telling the surprised dockers that the union had declared a strike to get a raise of 10 francs (40 cents) a day. The union officials immediately decided to make the strike a real thing.

### Receives Promotion

Winnipeg.—Robert Nelson Munroe, assistant division commissioner of immigration for Western Canada, has been promoted to a post in the Dominion office at Ottawa, according to word received.

## LAKE DROPPED TWO INCHES

An excellent official opening of the western lakes and rivers was made this spring when several guests of the Banff Springs Hotel commandeered a big motor bus, for the five-mile journey to Lake Minnewanka where several good catches were made.

The best sport fell to G. Andrews, of Banff, who captured a thirty-pound lake trout after a long struggle. He practically swears that the water dropped two inches when the trout had been landed.

## "Big Tim" Murphy Slain

Assailants Use Machine Gun Method To Finish Gang Leader

Chicago.—"Big Tim" Murphy, Chicago labor leader, was shot and killed at his home at 2543 Morse Avenue, in the exclusive Rogers Park district, by assailants who attacked him with machine guns.

An automobile parked, on a side street a few hundred yards away threw its glare of lamps on the labor leader as he stepped from the basement doorway, his silhouette reflected by the basement lights.

In response to a call, "Who is there?" Big Tim was answered by the rat-a-tat-tat of a machine gun.

He fell into the area-way, his brother-in-law grabbing his body and dragging it into the bungalow dining room.

Mrs. Murphy returned home as the brother-in-law, Harry Diggs, brought her husband's body into the room. The former state representative and labor leader apparently was in the direct line of fire from the machine guns, as Diggs escaped injury. Diggs said he saw "four or five men in a big automobile."

A neighbor said he at first thought the firing was some kind of a premature Fourth of July celebration until he learned that Big Tim was shot.

## To Consider Kellogg Note

Japan Approves Of Latest Proposal To Outlaw War

Tokio.—The foreign office spokesman says that Japan was in complete accord with the latest proposal of Frank B. Kellogg, United States Secretary of State, for treaty to outlaw war. The cabinet was expected to meet soon, to consider the Kellogg draft, after which a reply would be sent. The spokesman said the government believed the proposed treaty did more to ensure the peace of the world than any similar document in history.

### All Murders Are Solved

London.—Twenty-seven murders were committed in London last year, all of which were solved, according to a report by the Police Commissioner. Twelve persons were charged and ten murderers committed suicide, while one died in an asylum. The value of property stolen was \$2,821,000. Property recovered amounted to \$650,000.

### Has Valuable Hands

New York.—Wm. Bloom's left hand has been insured for \$200,000 by his employers, and his right hand for \$375,000. He is a designer of sport togs.

## RESEARCH WORK IN CANADA TO RECEIVE IMPETUS

Ottawa.—Industrial and scientific research work in Canada will receive an impetus as a result of a visit made to Washington by Hon. James Malcolm, minister of trade and commerce, and Dr. Henry Marshall Tory, president of the national research council of Canada, who have returned to Ottawa. Mr. Malcolm and Dr. Tory obtained a bird's eye view of what is being done in the Bureau of standards at Washington with the object to introducing the best methods in Canadian laboratories, to be located in Ottawa, and with the purpose of co-ordinating research efforts throughout the Dominion.

Mr. Malcolm emphasized the fact that it is not the intention of the federal government to duplicate what is being done in the universities or provincial government laboratories in Canada, but rather to secure co-operation and eliminate overlapping. The national research council will assign Nova Scotia problems to the scientists of that province and to the experts of other provinces will be given the problems peculiar to their particular district. Financial aid will be given to scientists working in the various universities.

Plans for the new Canadian laboratories to be established on a ten acre site at the Dominion Experimental Farm, at Ottawa, are now in course of preparation and the government is confident the national research council, working in conjunction with the provinces and the universities, will accomplish notable work in connection with the economic development of Canada.

## Drowned When Car Plunges Into River

Accident Happened When Driver Took Wrong Turn In Fog

Charlottetown, P.E.I.—Three young people, all natives of Elliotvale, P.E.I., were drowned, and two others narrowly escaped a similar fate, when a touring car took a wrong turn in the fog, and plunged into the river, at Southport recently. The deceased and survivors were all brothers and sisters.

George Walsh had driven the car here from New York, and took his brother and sisters out motoring, last night. They lost their sense of direction in the thick fog, and making a wrong turn, plunged over a wharf, into the river.

## Refuses a Peerage

Retiring Speaker Of British House Of Commons Does Not Desire Title

London.—Right Hon. J. R. Whitley, who retired last week from the speakership of the House of Commons, has intimated to the government that for personal reasons he does not desire to accept the peerage which it is customary to confer upon speakers on their retirement.

His refusal breaks a precedent which has been maintained for more than 120 years. Out of ten speakers of the House of Commons who relinquished office since 1802, seven have been created viscounts.

### Registration Cancelled

Panama.—Treasury officials have announced that the registration of all ships flying the Panamanian flag which were found engaged in smuggling liquor or contraband into the U.S. had been cancelled. The ships affected were the Federal Ship of Vancouver, B.C., which was seized more than a year ago by prohibition authorities on the West Coast of the U.S. and later released by court order, and the Chasma and the Haka-dara.

### Ambitious Project Planned

Regina, Sask.—According to a news despatch carried by a local newspaper, a move is being made at Lethbridge, Alta., to pipe gas from the natural field in Alberta to Moose Jaw, Regina, Brandon and Winnipeg. No names are divulged, but it is alleged that a bond issue will be floated in New York to obtain the necessary financial backing.

**WHAT MAKES A TOWN ATTRACTIVE**

The following is one of the interesting articles published on The Home-maker page of the Globe. Its message should be of interest to every reader and should impress the fact that Town Beautification is really worth while. All things beautiful are an asset and civic beautification whether on the part of individuals or the municipality or public organizations, pay rich dividends.

"You go into a town where the lawns are uncared for, no bright flowers nod and smile at you, no vines shade the porches from a glaring sun, no spreading trees offer cool shade, under which you may sit and rest, weeds are growing rampantly everywhere you look, you want to step on the gas and get out of that town as soon as possible.

"You go into a town where at the approaches are tall, beautiful trees that wave a welcome. The lawns are like green velvet and everywhere are colored flowers. The streets are clean, no old papers and rubbish lying about and no weeds to be seen. There is on all sides the appearance of prosperity. The tables in the hotels and restaurants have large bowls of freshly cut flowers. Even in front of the garages are beds of flowers, full of gay, fragrant blossoms. You want to linger in this town and when you meet your friends you tell them about it and advise them to go to that town when motoring. You judge the people in a place by the appearance of the town.

"No matter how seemingly indifferent people may be about flowers and how little they know about the growing of them, there is nothing that attracts more than homes and streets adorned by shrubs and flowers. The most beautiful architecture takes second place to flower bedecked cottages."

**LIFE IN THE COUNTRY**

Considerable discussion is heard these days as to the means that may be adopted to keep folks on the farm. The situation has become serious, for many experienced farmers are moving into the cities, either for the purpose of earning what they consider easier money, or to use their savings in giving their children and themselves the advantage of city life. Whatever the cause, the situation remains, and it constitutes a problem that may well engage the attention of national and state authorities. The fear is expressed that the production of food may become reduced to such an extent that the scarcity will not only increase prices, but threaten the welfare of the people.

While the reasoning is purely academic and subject to the views of each individual it is probably true that the persons who make occasional trips from the rural districts to the larger towns enjoy these visits and the things they see much more than those who see them every day. It is a case where familiarity sometimes breeds contempt. In the matter of better school facilities in the towns, there is in most cases no place for argument, although some progress has been made in a number of provinces to bring about a centralization of teaching that gives country pupils some of the advantages of the city in a course of study.

**LOCAL & GENERAL**

Miss R. Liesemer returned to her home in Carstairs last week.

Mr. A. J. Allen spent the week-end at Edmonton with his parents.

Mr. H. Morgan was a Calgary visitor the fore-part of the week.

Mr. B. L. Robinson was a visitor to the Capital City over the week-end.

Didsbury was well represented at the horse races at Crossfield on Monday.

Mr. & Mrs. Cecil Studer and Miss W. Studer motored to Banff for the holiday.

Mr. R. Hawkes and Bill Cotton departed on Monday for Pine Lake and other points.

Mr. & Mrs. J. V. Berscht left last week for an extended motor tour to Spokane and other western points.

Miss Florence Raiber of Calgary was a visitor in town over the week-end.

Dan Campbell's many friends will be pleased to know that he has been appointed City Editor of the Calgary Herald.

Mr. L. B. Fulkerth accompanied by Mr. and Mrs. W. J. Fulkerth left today on an extended motor tour to Lexington, Kentucky.

The Grand Centre Girls' Club will hold a Home Cooking Sale in the Leuzler Block on Saturday afternoon, July 7th. 28-1c

Mrs. Alex. Hendry and two children arrived here last Sunday to spend the summer.

Mr. and Mrs. A. G. Studer returned from Sylvan Lake where they opened their cottage for the summer.

Elmer Evans, Carlton Leeson and Reed Clarke left yesterday for Sylvan Lake to attend the Tuxis camp.

Elmer Liesemer and Ellwood Evans left last week for Vancouver where they plan on spending part of their vacation.

Mr. and Mrs. Harold Clemens, accompanied by Bessie Clemens and Miss Fisher motored to Banff on Sunday returning on Monday.

Tom Mix in "Tumbling River" at Didsbury Opera House, Wed., 11th.

Harold Hardy of Edmonton was a visitor over the week-end at the home of his parents, motorecycling town from the northern city.

Miss Evelyn Liesemer returned on Saturday from Toronto where she has been attending the Conservatory of Music.

Among others attending the annual summer school at Edmonton, are Miss Johnson and Mr. Crum of our local teaching staff.

The W.C.T.U. will meet at the home of Mrs. Sexsmith on Thursday, July 12. The topic on "Systematic Giving", will be given by Mrs. (Rev.) Holman. All ladies cordially invited.

Mr. and Mrs. S. Weeks of Iowa, and Mr. and Mrs. A. H. Myswonger have left for Washington after visiting at the home of Mr. and Mrs. Cline. Miss Erma Cline accompanied the latter to Washington where she will spend a time on a visit.

The Westcott W. I. met at the home of Mrs. R. MacFarlane Friday, June 29th. The topic for the afternoon, "Home Economics", was taken by Mrs. J. Robertson and the roll call was answered by giving a salad recipe. A splendid report of the W. I. Convention, held in Calgary recently, was given by the delegate, Mrs. H. Levagood. Lunch was then served by the hostess. The next meeting will be held at the home of Mrs. A. M. Robertson on Wednesday, July 25th at 2:30 p.m. All the ladies of the community are cordially invited.

There is nothing to justify undue pressure to keep men and women and boys and girls on the farms. Rural life should be so attractive in itself that enough persons will make choice of the country life to insure the crops of grain and quantities of other food-stuffs needed to maintain all the people at a reasonable cost.

**Burnside Notes**

The annual picnic of the Burnside U.F.A. on Friday last brought out a record crowd. The exceptionally fine day tempted many to attend and the grounds at the Lone Pine Hall were crowded with cars. The ball game between the Rosebud and Lone Pine teams was a splendid game and closely contested and Rosebud worked hard for the \$15 prize they earned by their victory.

Burnside school team beat Jutland team in another splendid game. In the evening the Clemens-Bellamy orchestra furnished the music for the dance which in spite of the rain was well attended.

Don't forget the W.I. meeting in the Lone Pine Hall, July 19th.

The U.F.A. will meet on Monday evening, July 9th in the Lone Pine Hall.

Mrs. N. Eckel left on Saturday for her old home in Walkerton, Ont. En route she will spend a few days with her brother-in-law, Mr. John Eckel and family at Swift Current.

SALE BY

**Public Auction**

Acting on instructions from Mr. W. A. Yeo I will sell by Public Auction at his residence opposite the Presbyterian Church, on

**Saturday, July 7, 1928**

at 1:30 p.m., the following:

# 125 Times Around the World

IN pursuing its policy of consistent pro-  
gress—in its continual search for new  
ideas : : : in its constant development  
of better cars : : : General Motors not  
only maintains its great International  
Research Laboratories and hundreds of  
skilled engineers, but also operates the  
first, largest and most completely equip-  
ped automobile proving ground in the  
world.

Here, on the vast fourteen-hundred-acre  
tract of the General Motors International  
Proving Ground, every type of road is  
duplicated, every condition of driving is

reproduced. Here all makes of General  
Motors cars are constantly being sub-  
jected to the most searching tests. Here  
every principle developed by General  
Motors engineers is put to proof . . .  
every detail of each test car's perfor-  
mance carefully and closely checked.  
Here years of normal use are crowded  
into a few months of continuous, gruc-  
ling operation.

A typical example is offered by Chevrolet.  
Since the opening of the General Motors  
Proving Ground, Chevrolet  
cars alone have piled up  
over three million miles of

testing . . . a distance equal to 125 times  
around the world.

In the countless millions of miles that General  
Motors cars have covered on the General  
Motors Proving Ground, there has been one  
great purpose kept in view . . . to improve,  
by constant testing, the quality and worth of  
every General Motors product.

Every Canadian buyer of a General Motors car  
gets a car built in Canada by Canadians to meet  
Canadian conditions of road and climate . . .  
a better car and a greater value because General  
Motors uses so freely and unsparingly its un-  
equalled facilities for testing and research . . .  
With better General Motors cars at the end  
of the journey, millions of miles is not too far  
to go.

## When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### WORLD HAPPENINGS BRIEFLY TOLD

The new German dirigible, LZ-127, may make a trip to East Asia by way of California.

Miss Mercedes Gleitze, London stenographer, failed in an attempt to swim the Irish Channel to Great Britain.

Assurance that representations made on behalf of the blind in Canada will receive government consideration has been given to a delegation of blind persons by Hon. J. A. Robb, Minister of Finance.

The King has approved the appointment of Sir John Middleton as Governor-General and Commander-in-Chief of Newfoundland, in succession to Sir William Allardyce, whose term has expired.

The University of Wisconsin, at Madison, gave recognition to the attainments of its most celebrated former student, Col. Charles A. Lindbergh, by conferring the honorary degree of Doctor of Laws. Lindbergh arrived there by plane.

Fritz Von Opel's rocket car, the Rak-3, was wrecked, but not until after it had attained a speed of 158 miles an hour. This is claimed as a world record on rails. There was no driver in the car.

England's most picturesque visitor, Sir Offri Atta, blue-black potentate of Akim Abukwa, has received from the King at Buckingham Palace the accolade of his new British knighthood.

Col. Charles A. Lindbergh carries a blanket public liability aviation insurance policy to the amount of \$100,000 on any aircraft piloted by him. The policy also covers him for property damage.

Fur-bearing animals in Ontario are growing scarcer each year, as frontiers of civilization move forward, it is indicated in a statement issued by the Department of Fish and Game, which shows that royalties received last year totalled \$112,762, compared with \$130,793 in 1926. With the trapping of beaver eliminated the amount is likely to be still smaller for 1928.

Raw recruits are probably so called because they are not accustomed to fire.

### BABY GIRL HAD DIARRHOEA WHEN CUTTING TEETH

Mrs. A. J. Murray, Gull Lake, Sask., writes: "Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhoea. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any

why, I wouldn't be without it where there are children."

"My husband went to town and got a bottle, and the very first dose helped her wonderfully, and in three days she was well over the diarrhoea and was running around as well as ever."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1740

### Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

New experiences awaited us the following day when as guests of the Port of London Authority, we were taken to see something of what London's handling facilities are. It was not possible to see more than a small part, for the Port of London, in one year, handles merchandise to the value of hundreds of millions of pounds sterling. For example, the imports and exports passed through the port in 1926 totalled in value \$3,500,000,000 and included 65,000,000 bushels of wheat. In the same year 50,000,000 tons net register of shipping entered and left the port. Walking through one set of show-rooms, ten acres in extent, we visited the Ivory Room, where we were astounded to see a perfect specimen of pre-historic mammoth tusks 11 feet long, weighing 163 pounds, and having an estimated age of 56,000 years. In the State Room \$525,000 worth of pepper was stored, and an interesting exhibit was a 28 lb. weight floating in a bath of mercury. The Wool Room which contained a number of bales of Canadian wool stores in a single year nearly 2,000,000 bales.

Another interesting warehouse was the Iodine Room, holding 25,000 small hide-bound kegs of iodine, every one worth \$500. The hide covering is necessary because of the rotting effect of iodine which destroys the wooden kegs in a comparatively short space of time.

But the thrill of the day came when we explored a portion of the Port's wine vaults. Before descending to the cellars we were handed oil torches fastened to the end of staves. Torches such as these have been used for 120 years. The temperature of the vaults never varies from 60 degrees, yet the only means of regulating it are incandescent lights, and the amount of sawdust on the floor. Fungus produced on the roof of the cellars by the fumes of the wine is a curious characteristic. In the brandy vaults this fungus is absent. Twenty-two thousand pipes of wine, each worth \$500 can be accommodated in these vaults which have twenty-eight miles of metal runways, apart from the vast stores of spirits contained in other vaults not included in the day's itinerary.

Again in the open air we boarded a launch en route to the S.S. Minnewaska, where we were due to lunch as guests of the Port, under the chairmanship of Lord Ritchie of Dundee. The novelty of luncheon on this beautiful ship, surrounded by great liners from almost every country in the world made a deep impression. This was followed by a river trip back to London.

In the evening we were the guests of the Empire Marketing Board at dinner in the Hyde Park Hotel and had an opportunity of learning at first hand the valuable work being done by this organization to encourage the consumption of products produced within the Empire. The sum of five million dollars per year has been placed at its disposal by Parliament to further the marketing of Empire products. The Board is a non-party body and includes representatives of the Dominions and Colonies. Agricultural research is also an important phase of its work. The chairman, on the occasion of our visit, was Lord Lovat, the Under-Secretary of States for the Dominions, who told us something of the work of the Board, which was further explained by Sir Halford Mackinder,

chairman of the Imperial Economic Committee.

The next day's programme provided one of the most interesting mornings of our stay in London. This was a visit to the Tower, a grim fortress which we entered with mixed feelings, for here and on Tower Hill perished some of the most renowned men and women of their day. Here the beautiful Anne Boleyn was beheaded; and here Lady Jane Grey saw the headless body of her husband carried past her on the morning when she knew that she was to die. In it Sir Thomas Moore, Archbishop Cranmer, Sir Walter Raleigh and the little Princess met their tragic fates, and though these things happened in the days gone by, one feels the Tower to be sinister still. Even in our own time was it not chosen as the place in which the spies in the Great War should meet their doom?

We were admitted by Yeoman of the Guard "Beefeaters" who still wear the quaint uniform which was adopted in the time of Henry VII. We were shown the Bloody Tower where the bones of the two murdered Princes were found and the room (reconstructed), in which Sir Walter Raleigh, when a prisoner wrote his History of the World.

In the White Tower we saw the chamber in which Guy Fawkes and his fellow-conspirators were tortured in 1605. Here too, were the apartments occupied by Queen Elizabeth when she herself was a prisoner in the Tower. We saw the block and execution axes, one of which has a nick in the blade where it struck the neck of a victim. And then, how close to our Canadian hearts it came, we saw the cloak on which Wolfe died on the Heights of Abraham.

Many quaint forms are still retained in the administration of the Tower. The gates are shut at night to the accompaniment of ancient ceremonial and after midnight no one may enter the precincts without giving the password.

In one of the strong rooms of the Tower there repose the Crown Jewels, including the crowns of King George and Queen Mary, a display of treasure which amazed us all.

The Tower of London was built by William the Conqueror, and it is said that the site on which it stands was selected by Julius Caesar as a location for a fortress. One of the most interesting features of the Tower is the portcullis, said to be the oldest one in existence in working order.

On our way to the Tower we stopped at St. Paul's Cathedral, Sir Christopher Wren's masterpiece, but, owing to the gouting operations on the piers which support the great dome, it was not possible to see its interior to advantage, most of it being boarded up and inaccessible. Thus, we did not see the crypt or enter the Whispering Gallery.

(To Be Continued.)

**For Both House and Stable.**—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectic Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

#### Question of Relationship

In a recent court case at Toronto, a nice question in relationships was propounded. The plaintiff, a woman, was testifying against a chauffeur. "Isn't he your brother-in-law?" she was asked by counsel. "Didn't you say he was?" "No. I said he was my husband's sister's husband's brother!" The counsel gave up any more questioning on this point.

### SUNDAY SCHOOL LESSON

JULY 8

SAUL AND STEPHEN

Golden Text: "Be thou faithful unto death, and I will give thee a crown of life."—Revelations 2:10.

Lesson: Acts 7:54; 8:3; 22:3, 4, 19, 20; 26:4, 5, 9-11; Galatians 1:13, 14

Devotional Reading: Psalm 116:12-19.

#### Explanations and Comments

Stephen's Arrest and Defense, Acts 6:8 to 7:56.—When the Greek speaking Jews who were temporarily or permanently staying in Jerusalem attempted to dispute with one of the leaders among the disciples of Jesus, they found this man, Stephen, more than a match for all their logic and religious philosophy. Their original hatred of him, as a man full of faith and of the Holy Spirit (Acts 6:5), and therefore full of grace and power, then turned into cunning malice. They resorted to calumny, raised up false witnesses against him, seized him and brought him before the Sanhedrin.

From Stephen's defense, 7:48, it is evident he had correctly taught that God could be worshipped not only in the temple, but everywhere. As was true with Jesus (Mark 14:58), Stephen's words were distorted by false witnesses; he was accused of teaching that Jesus of Nazareth would destroy the honored temple, and would change the revered Mosaic laws. Fearlessly, Stephen undertook his defense. Rehearsing the ancient history of Israel, he skillfully showed that God's revelation to His people had been progressive, that theirs was a spiritual religion, and that God had no need of an earthly temple. At first, apparently fascinated by the clarity and truth of his words, his hearers were silently attentive; but as they caught the drift of his argument they displayed signs of anger which Stephen could not fail to see.

If, before the coming of the violent end which he saw approaching, Stephen was to apply his words to his hearers, he must speak quickly. "Ye do always resist the Holy Spirit," he cried boldly. "Of the Righteous One ye have become murderers!" At once they "were cut to the heart"; they "gnashed on him with their teeth," that is, only by a "brute-like grinding of their teeth" were they able to restrain their unreasoning rage. But he, still filled with the Holy Spirit, saw "the heavens opened" (a familiar Jewish figure of speech signifying one's insight into divine things) "and the Son of Man standing on the right hand of God"; and, in apparently utter disregard of the frenzied fury around him, he told of what he saw.

#### Receives Large Salary

Chief Harpooner Earned \$39,000 In Nine Months' Whale Hunt

Few occupations tax the nerves of man more than whale hunting, but few occupations pay better. When the whale-hunting fleet recently returned from the Antarctic after a nine-months' cruise, the chief harpooner had earned a "normal" income of \$39,000. In addition to this sum he had a contract granting him \$20 for each whale he killed. During the nine months he killed 300 whale, and his extra income amounted to \$6,000. Hardly one man in a thousand may hope to be a really good harpooner. It is upon his ability that the result of the expedition largely depends, and though his profit may seem high, it is modest compared with the profit he brings to the expedition.

#### Changes Name Again

Peking Will Be Known As Peiping Meaning "Northern Peace"

The nationalist government political council has decided to change the name of the historic Manchu capital, Peking, to Peiping, meaning "Northern Peace."

The action is considered at Shanghai as an attempt by the Nanking government to destroy Peking's political importance and further that of Nanking, which they insist is now the National capital.

The announcement of the action of the council states "it is hoped Peking will continue as a centre of art and culture, but as a political centre it is dead."

### Vacationists!

You'll find many uses for Minard's during your vacation days. Pack a bottle in your grip.

### POPULARIZING THE ST. LAWRENCE ROUTE

The fast maiden voyage of the Canadian Pacific liner "Duchess of Bedford," just put into the service of the St. Lawrence route as the finest of a quartette of 20,000 ton Canadian Pacific steamers has called wide attention to the increased popularity of the St. Lawrence route.

In addition to the "Duchess of Bedford" three other "Duchesses" will shortly be commissioned and this fleet of Cabin Class steamers will constitute the largest ships to call at

Montreal. Their time schedule is so arranged that it is now possible to breakfast in Liverpool on one Friday and in Montreal the following Friday—an unique service for the St. Lawrence.

Excellent appointed and furnished, the "Duchesses" open a new era in Cabin Class travel and experienced travellers who have seen the new liner compare her accommodations very favorably with first class ships. Six hundred feet long, two-funnel-

ed, oil-burning and 75 feet wide, the new liner has broad deck spaces and many marine innovations, all conducive to passenger comfort. She is commanded by Captain H. Sidons, R.N.R., whose 21 years in the service of the Canadian Pacific Steamships have taken him through the seven seas. He was formerly in command of the "Minnedosa" and "Montroyal," having been in charge of the latter vessel on several cruises through the West Indies—a feature to be repeated by the "Duchess of Bedford."

## "Swat the fly" with GILLETT'S LYE

A teaspoonful of Gillett's Lye sprinkled in the Garbage Can prevents flies breeding

Use Gillett's Lye for all Cleaning and Disinfecting

Costs little but always effective

### CHAPTER XXVI.—Continued.

The next day Helmi went to the North Star Rooming House, walking wearily up the stairs to No. 19.

Mrs. Corbett opened the door to her as she had four months before, and again the anguish in the girl's face told its own story.

"My God! Helmi, is she dead?" asked Mrs. Corbett.

Helmi sat down before she answered.

"Is that all? Sure that's nothin'; every child takes scarlet fever. They're grand at the Isolation Hospital. I know big Miss Shaw up there, as grand a girl as ever went on rubber heels. Cheer up, Helmi, the little pet will be all right, please God. I thought the gypsies had stolen her by the look on your face, and I'm glad it's nothin' worse than scarlet fever."

"My man has gone to the war!" said Helmi brokenly; "I saw him on the train. He did not see me—he does not care about me."

Mrs. Corbett paused. This was a harder complication than the illness of little Lili, and for a moment even this determined optimist was floored—but only for a moment.

"Well, sure, when he's there you know where he is, and it's noble of him to go, Helmi—remember that. Now here, dear, take a cup of tea. Yes you can; a person can always take a cup of tea, no matter who's gone, and it makes life look a little brighter. Drink it down, dear, and have another. You look better now. Don't get down to mourning, Helmi; there's nothin' happened yet that can't come right, remember that; and your darlin', blessed child with God's blessing, will come through the fever just the way we all did, and your man will come back again."

"But he doesn't want me any more. . . . I know now. The magis-

## MEDICINE FOR YOUNG GIRLS

Mothers Endorse Lydia E. Pinkham's Vegetable Compound

Sydney, N. S.—"My seventeen year old daughter took Lydia E. Pinkham's Vegetable Compound for weakness and pains. She could not go about much with the other girls as she was not strong enough. We got six bottles and it did her a great turn. She is working out now in a store and walks three miles every morning and back in the evening."—MRS. MARY VANCE, 44 Langan Road, Sydney, N. S.

Pinewood, Ont.—"I constantly had pains in my back and side and spent two days in bed every month. I have taken three boxes of Lydia E. Pinkham's Vegetable Compound Tablets. They have done me good and I always have them in the house. I have recommended your good medicine to several friends and have given it to my 17 year-old girl."—MRS. ALFRED OUELLETTE, Pinewood, Ontario.

W. N. U. 1740

trate has turned him against me. I said I would kill that man, and I will."

"No, dear, no; you mustn't talk of killin' anyone. God will deal with the wicked in His own good time. You come with me to the Army and you'll find comfort in God's love. No killin', though, Helmi, that's bad. And see, dear, I was forgettin' there's two letters for you—just came yesterday."

Helmi took them eagerly and opened one. "It's a mistake," she said, listlessly. "See, there's money in it. No one would send me money. It has been opened too, and sealed up again."

Mrs. Corbett took it out of her hand. "It's a for you, right enough," she said; "here's your name on it. It's a separation allowance for fifteen dollars from Arthur Warner, Eagle Mines."

"I do not know anyone called Arthur Warner," said Helmi.

"Well, he knows you, and that's better—anyway, he wants you to have the money, and you're a fool if you don't take it. Read the other one—maybe it will tell."

Helmi opened it and read. It was the letter Jack had opened at Eagle Mines. Helmi read it aloud to Mrs. Corbett. "I know now," she said. "He is a good man, that Mr. English. I will take the money—he means good by me."

"Sure he does," agreed Mrs. Corbett; "he seems like a good fellow, a good Englishman, and there's nothing finer in the world. Now Helmi, dear, I want you to lie down in Rosie's bed and have a good sleep, poor child. Now you'll be havin' trouble with your breasts, cuttin' off the baby so suddint, so I'll run in and borrow Mrs. Kalinski's breast pump—she's the grandest woman that for a neighbor, for she has everything from a boot-jack to curtain stretchers. You see in their business they get all sorts, and he gives her the run of the store—but have your sleep now, honey."

But Helmi's thoughts were not of sleep. She had a duty to perform, and which she had no desire to evade. One great purpose dominated her heart and cried aloud for fulfillment. The money which had come to her had made it possible. When Mrs. Corbett came back, Helmi was gone.

### CHAPTER XXVII

Dr. St. John lay one evening on the chesterfield in his den, before a cheerful wood fire. Eva was entertaining her Wednesday night "Bridge," and tinkles of laughter, high-pitched and nervous, shot through the velvety murmurs of conversation.

The doctor had listened to such conversation many times, and knew the little razor-sharp points of antagonism it held and which seemed to pop out like needles from a squeezed pin-cushion, thin, sharp, unexpected, for the temper of the guests was uncertain. They had no community of purpose—they were pursuing no particular trend of thought, they were time killers, sensation hunters. He knew the very odor of the room—sachet powder, cigarette smoke, flesh of women too scantily clad, perfume heavy and exotic, a sweet smell, yet not wholesome—like good apples wanting air.

The doctor could see it all like a picture. The dark brown background, shot through here and there with little flashes of pale lightning that began in nothing and ended in nothing, led nowhere. Eva's friends met, chattered, parted, met again. No one wiser or better, more inspired to nobler living. They were doing nothing wrong—it was even worse than that he thought—they were doing nothing.

The doctor recalled that it was Wednesday night. His mother always went to prayer-meeting on Wednesday night. How Eva would laugh if anyone mentioned prayer-meeting. And yet human nature was the same. But somehow it was getting off the track. His mother had spent years on a treadmill, her days laid out for her in regular lines. Work stared at her from morning till night, and she did it, and held her head above it all. She was always sweet-tempered, interesting, sympathetic, Eva having nothing to do, did nothing, and doing nothing, degenerated, grew shallow, selfish, cross-grained and hard.

In his struggling days Dr. St. John had dreamed of having a house like

When criticism begins to fill the mind the tenderness of love is over.  
(To Be Continued.)

## Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

### TOOTHACHE

As a child, you may have thought a tooth solid right through just as a piece of ivory which it resembled.

Then one day, you noticed that when something sweet got into the "hole" in a tooth, it hurt a little, but this soon passed away.

So you kept "mum" for fear you would have to go to the dentist. Until, one night you awakened your parents with crying and announced between sobs that your tooth was "hurting."

Now, what had happened? Within each tooth is a chamber that is filled with soft tissue—blood vessels and nerves, and the decay which is a disease process had been steadily progressing towards the "inside" until the soft tissue had become infected by the disease bearing organisms.

Then nature had rushed to the defense to combat them by sending in to the tooth a greater supply of blood, containing millions of little warriors called "Phagocytes." Some of these burst through the vessel walls to attack the organisms and with this increase of blood there was a swelling of the tissue, causing increased pressure on the nerve endings—which signalled to headquarters—and so pain resulted.

And, just as in battle, as the fight wages, the wires grow hotter—so the nerves signalled more furiously, crying loudly—until, by and by the fight was over and the wires cooled off and the pain was stilled—and you were so glad that it was over, that you forgot to wonder how it stopped.

### Little Helps For This Week

"His compassions fail not; they are new every morning."—Lamentations iii. 22, 23.

New every morning is the love Our waking and uprising prove; Through sleep and darkness safely brought, Restored to life and power and thought.

New mercies each returning day Hover around us while we pray; New perils past, new sins forgiven, New thoughts of God, new hopes of heaven.

—John Keble.

Each day, each week, each month, each year, is a new chance given you by God. A new chance, a new leaf, a new life, this is the golden, the unspeakable gift which each new day offers to you.

—Frederic W. Farrar.

### Minard's Liniment for Insect Bites.

### Royal Air Force Band

Will Be Heard At Western Points During the Summer Months

The band of the Royal Air Force, now on a three months' tour of Canada and an engagement at the Canadian National Exhibition at Toronto, is the youngest among the first-class bodies of military musicians in Britain.

The band, under the leadership of Flight-Lieutenant Amers, will play for a week at the fairs at Brandon, Man., Calgary and Edmonton, Alta., Saskatoon and Regina, Sask., and for two weeks at the exhibition at Toronto, late in August. In the interval, between the western fairs and the opening of the Canadian National exhibition, the organization will give concerts at Victoria and Vancouver, B.C.; Seattle, Wash.; Lethbridge, Alta., and Winnipeg, Man., as well as other cities, and finally will reach Montreal and Quebec.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

### An Old Superstition

Two persons who wash their hands in the same water, or who dry their hands on the same towel are likely to go begging together, Sussex folk will tell you; but in the north of England, they say to do this signifies a quarrel.

Minard's Liniment heals cuts, bruises, etc.

## Built For Extra Mileage

Firestone Gum-Dipped Tires assure greater safety, comfort and economy.

Gum-Dipping saturates and insulates every fibre of every cord with rubber—builds extra strength and endurance, while the scientifically designed tire tread grips the road and provides positive traction.

Your nearest Firestone Dealer sells these better tires. See him to-day and let him serve you better and save you money.

### Edmonton Canning Factory

Edmonton's newest industry, the Broder canning factory, has started operations with 75 persons on the payroll. This is the first industry of this nature in Alberta.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

The chayote, a vegetable similar to the cucumber and squash in taste, is raised in the Gulf Coast regions of the United States.

## Don't Make a Toy Out of Baby

—Babies Have Nerves—

By RUTH BRITAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

## Eczema Formed Painful Blisters Cuticura Healed

"Eczema started with a fine rash on my arms. Later it formed blisters about the size of a bean which were full of water and very painful. It burned and was so sore I could not bear to touch it. The weight of a cup in my hand would fairly make me cry out with pain. I had my hands and arms tied up from the ends of my fingers to my shoulders. Sometimes it kept me awake for hours."

"A friend recommended Cuticura Soap and Ointment so I sent for a free sample. I purchased more, and in about three weeks I was healed." (Signed) Miss Emily B. Davis, R. R. 3, Northwood, Ont.

Keep your skin clear by using Cuticura Soap, Ointment and Talcum for daily toilet purposes. Touch pimples and itching, if any, with Cuticura Ointment, bathe with Cuticura Soap and hot water.

Sample Rush Free by Mail. Address Canadian Depot: "The National L. Co." Price, Soap 25c, Ointment 25c and 50c, Talcum 25c. Cuticura Shaving Stick 25c.

For information apply to the undersigned.

A. McNAUGHTON,  
Sec.-Treas., of the Municipality of Westerdale No. 311.  
Post Office Didsbury, Alta.

##### Public Notice

Municipal District of Mountain View No. 310

Considerable damage has been caused to bridges and culverts within the Municipal District of Mountain View No. 310 by traction engines and especially when used with spades attached to the wheels. Notice is therefore given that in future by-law No 3 will be enforced. The following is a synopsis:

"No person shall run any portable engine or traction engine over any culvert or bridge on any highway in the Municipal District of Mountain View No. 310 unless and until such person shall strengthen and protect, at his own expense, such culvert or bridge by laying down three inch plank at least twelve inches wide under the wheels of such engine, so as to distribute the weight and protect such culvert or bridge from any injury resulting from any such engine being run across or over same.

"Any person convicted of a breach of this by-law shall be liable on a summary conviction to a fine of not more than ten dollars (\$10.00) for each such offence, and in addition for damages to the extent of any injury caused to any such culvert or bridge by reason of such infraction."

27-2c. A. BRUSSO, Sec.-Treas.

**Story**

**MOST** people think of their Chevrolet dealer as a **NEW-CAR** dealer . . . partly because of the large number of new Chevrolets which they see on the streets. But, while new car sales are the Chevrolet dealer's biggest reason for being in business, they form only *one side* of his activities. He must not only *sell* cars but he must also *exchange* them.

Every good, successful Chevrolet dealer must also be a good, successful Used Car dealer.

From his experience in selling Chevrolet cars, he knows motor-car values . . . He knows that it is just as important for him to sell a Used Car as a new car . . . He knows that Used Car buyers have a right to as much for their dollar and are entitled to as complete satisfaction as new car buyers . . . He knows that satisfied Used Car owners will eventually become prospects for new cars . . . He knows the value of good-will.

In short, our business as Chevrolet dealers depends on our reputation as used car dealers. That is why you are sure of a square deal and a sound dollar-for-dollar value, when you buy a used car here. UC-7-7-28C
